Orthodox proof games showing harmonious combinations of Ceriani-Frolkin (CF, a promoted pieces is captured) and Pronkin (PR, an original officer is captured and replaced by a promoted piece of the same type and color on the original square of the original piece). Pronkin pairs (X,Y) refer to two different original pieces, each replaced by the respective promoted piece, (XX) means that an original officer is captured and subsequently replaced by two promoted pieces of the same type and color. “Harmonious“ means piece types occur in pairs or as complete set (=AUW).
